

6.031 Final Project Contract

Goals

- The goal of the team is to make a SFB, ETU, RFC project that with collaboration and teamwork
- We will all strive to get an A, pushing each other in a supportive manner
- Other than the circumstances of health problems, family matters, or any other extreme case of emergency, it is unacceptable to slack off and result in a < B grade for the rest of the team

Meeting and communication norms

- We will always use in class time to work
- Thanksgiving holiday is a time for us to relax and possibly spend time with family, expectation will be half of normal work expected as if it was a school day. Time to reflect on our project.
- We will try and meet at least every other day, with the hopes of everyday

Work Norms

- I believe 15 hours a week will be a good start to begin with working on the project. If we see we do not reach the weekly milestones though, we will increase the time we are working on it
- We will split up the work so that everybody gets a fair load of the work and gets exposure to all of the topics covered in the class

Tests	Baptiste	Brett	Giannis
Code	Giannis	Baptiste	Brett

Decision Making

- We need 100% from all the team members before making a decision
- We will communicate thoroughly in an attempt to avoid any major conflicts, and if there are significantly differing opinions, we will put it to a vote

The team members,

Giannis Chatziveroglou

Brett Allen

Baptiste Bouvier
